ENTERPRISE UK LTD

MANUFACTURING from CHINA

Sheetmetal Work & Pressings

A Low Risk Way to Buy From China

China Enterprise UK Ltd (CEL) is part of the CEL Group, a UK and China based group of engineering businesses.

CEL offers you the price advantages of dealing with a low cost manufacturing economy such as China but without the communication problems, Intellectual Property Risks (IPR), or crucially engineering and quality issues that are commonplace when dealing with Chinese companies direct.

CEL is a UK Limited company based in Telford, Shropshire and in mainland China.

CEL operates from a large modern 200,000 square foot facility located near to Shanghai, manufacturing a wide variety of sub-contract products for Original Equipment Manufacturers (OEM's).

CEL has its sales, engineering and warehouse logistics centre based in Telford.

Plastic Injection Mouldings & Tooling Manufacture

CEL offer the following services:

- Complete component supply, sub-assembly manufacture through to full electro-mechanically tested products for OEMs.
- In-house manufacturing facilities allied to rigorous quality control systems (ISO 9001 standard held).
- Sourcing and quality assurance from strategic suppliers.
- Storage and supply chain logistics both in the UK and China.
- Direct mixed product containers where required to further minimise part costs.
- All shipping, logistics, duty and VAT payments handled by CEL logistic's team.

In-House Production Facilities:

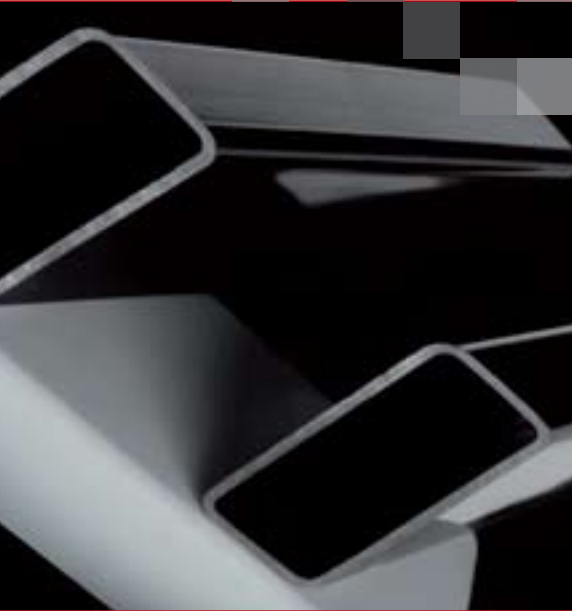

- Sheetmetal work and fabrication
- Presswork
- Plastic Injection Moulding
- Tooling for plastics
- Metal Turning
- Mig, Tig and Spot Welding
- Powder Coating and Wet Spraying (RoHS Compliant)
- Plastic Extrusions
- Ultra Sonic Welding

Assembly Work:

- Mechanical Assembly ➤
- Electrical Assembly ➤
- (European Lighting Association approved manufacturing factory)
- Electro-mechanical Assembly ➤
- Final testing procedures and certification offered ➤

Storage & Logistics, UK & China

- CEL handle all logistics and shipping from China to ultimate destination (UK or Europe)
- Delivery from our UK warehouse to customer schedule or 'kan-ban'
- Storage in China as part of a supply chain
- Specialised packing to customer order
- Sourcing of design and printing for customer specific packaging

Other Products Produced by CEL include:

- Metal Pressings ➤
- Electrical Components ➤
- PCB's ➤
- Wiring Looms and Harnesses ➤
- Aluminium Extrusions ➤
- Print and Packaging ➤
- Metal Spinings ➤
- Metal Castings of all types ➤
- Vacuum Formed Parts ➤
- Standard Fastenings ➤

Full In-house Assembly Capabilities

How CEL minimises the risk to your offshore supply chain

Communication

- You deal directly with UK based China experienced sales, engineering and logistics specialists.
- 24 hour access to our secure ftp website, password protected, gives you visible order status through to product dispatch.

Quality

- Specialist China experienced UK based engineers speed transfer of product knowledge and criticality to our English speaking engineering team in China.
- Online access to quality reports.
- Rigorous quality procedures approved by many multi-national blue chip OEMs.

Intellectual Property

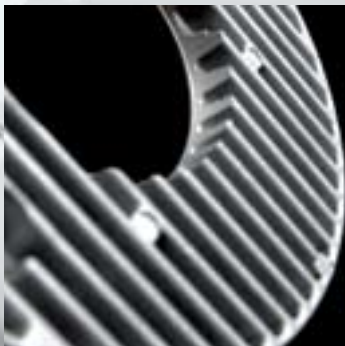

- All Confidentiality Agreements signed in the UK under UK law.
- Manufacturing Value Agreements signed under UK law.
